Interventions will generally be handled by the student's teacher or by other school staff. The building principal will become involved when serious and/or repeated misconduct occurs.

ATTENDANCE

What to do if my child is sick. . . →

SCHOOL ATTENDANCE

Children are required by law to be in attendance except that they may be excused for illness or a religious holiday. Parents whose children will not be in school for any reason are asked to contact the school office **PRIOR TO OR ON THE MORNING OF THE ABSENCE.** In an effort to keep students healthy, district personnel may call parents if their child is not feeling well while at school to notify them of the illness. The student will then need to be picked up from school by the parent/guardian or emergency contact person. **Supervision before 7:30 a.m. and after 3:45 p.m. is not provided.**

What to do if my child is returning from an absence... →

RETURNING TO SCHOOL AFTER AN ABSENCE

Children (or their parents) are responsible for finding out what work needs to be made up due to absence. If your child is absent and we do not receive word regarding the absence, we will call the parent at home or work. If we are not able to make contact, a note concerning the absence will be required. By state law, regular school attendance is the joint responsibility of the parents and school. The school authorities must enforce the law as cited by 118.15 WI Statutes. At the same time, parents have the responsibility to see that regular attendance is maintained. Absences without parent permission are considered unexcused.

What if I would like my child to stay indoors for recess after an illness? →

STAYING IN FROM RECESS AFTER AN ILLNESS OR INJURY

If you feel your child is well enough to return to school after an illness or injury, but would like to have him/her remain indoors during recess, a note from you is sufficient to keep your child inside for up to two (2) days after an illness. If more than two days are required, provide a physician's statement authorizing the teacher to keep your child indoors or to restrict activity for as long as necessary.

What if my child will miss school because of a vacation or other reason? →

TAKING CHILDREN OUT OF SCHOOL FOR VACATION

Taking children out of school for an extended period of time is **NOT** recommended. We will make reasonable attempts to supplement work missed, although advance assignments and sending classroom materials, etc., will be limited. Teachers will not be expected to reteach a lesson. If you are taking your child out of school for an extended period of time (3 or more days), **please complete and sign the form available in the school office.** The completed form should be returned to the school office prior to the absence.

What if my child has a medical appointment during school hours? →

DOCTOR OR DENTIST APPOINTMENTS

If possible, please make dental and doctor appointments for times other than during school hours. In cases where this is not possible, please inform the office of the time you will pick your child up and the approximate time s/he will return to school. **In all cases, students should be picked up at the school office and checked in at the office.**

When would my child be considered tardy?

TARDIES

Students are considered tardy after 8:20 a.m. until 8:30 a.m.

Our PTAs promote the well being of children. At Northland Pines, our PTA/PTO members believe strongly in the involvement of family members and interested citizens in the education of our children. Through partnership with the staff, we all strive to provide the best for our children and to advocate for them.

Our PTAs/PTOs support our schools in various ways. By providing many opportunities for participation in our children's lives at school through volunteer activities, all are encouraged to be involved in their areas of interest.

PTAs/PTOs also have monthly meetings where information about our school and the district is provided, while, at the same time, giving folks the forum to discuss issues that matter to them. What is the proper procedure if I have a question or concern? →

WHERE TO GO IF YOU HAVE A QUESTION OR CONCERN

It's often frustrating when you have a question or concern and you don't know how to go about getting an answer. The following information outlines the general philosophy of the district based on Board of Education policy and procedure.

If you have a concern over a school-related matter, please adhere to the following:

1. **If the concern is with a teacher and/or classroom experience**, a conference with the teacher should be scheduled at a mutually convenient time. The matter should be discussed openly and frankly.
2. **If the resolution cannot be reached in a conference with the teacher**, the matter should then be discussed with the principal. In certain cases, a letter may be requested by the principal.
3. **If further steps become necessary, a parent/guardian may contact the District Administrator at 715-479-6487.** The school principal may be a part of any discussion with a parent/guardian resulting from a District Office contact.
4. **If necessary, concerns may be taken to the Board.** If a parent/guardian feels it is necessary to take a concern to the Board level, this may be done by writing to the District Administrator or the President of the Board.

Letters addressed to the Board of Education should be sent to the District Administrator at the District Office, 1800 Pleasure Island Road, Eagle River, WI 54521. The District Administrator will distribute a copy of the letter to the Board of Education prior to or at the earliest scheduled meeting. The letter will be acknowledged during the written communications portion of the meeting. Following the meeting, the District Administrator and/or the Board of Education will respond to your letter.

In certain cases, if the problem is not a specific classroom concern, a parent/guardian with special circumstances may contact other employees in the school organization. Examples might be related to pupil services, food services, transportation and/or other non-school matters. Such concerns will be referred to the administrator and/or employee responsible for the given area of concern.

A citizen suggestion/commendation form is also available as another means of communication. These forms are available at the school office.

The District follows Wisconsin Statute 252.04 regarding immunizations which requires all students who do not submit waivers to present evidence that they have received at least the first dose of each vaccine required for their grade and are on schedule for their grade and are on schedule for the remainder of the immunization series. The school is required to notify the District Attorney of Vilas County of any minor student who fails to present written evidence within 60 school days.

Waivers are allowed for health, religious or personal conviction reasons. Measles, mumps, and rubella vaccines must have been received on or after the first birthday. STUDENT PHOTOGRAPHS AND RIGHT TO PRIVACY

During the course of a school year, individual students and student groups are occasionally videotaped and/or photographed in classroom situations, during fine arts performances, on field trips, while participating in athletics, etc.

The resulting photo and/or videotape may be used in a variety of ways: to promote the school; to instruct students or staff members; or to orient new parents, staff, and students. The final product could also take a variety of forms: photo displays; slide presentations; newspaper articles; pamphlets; video programs; the school yearbook.

Pursuant to the Family Educational Right and Privacy Act and State Statute 118.125(1) (d), any parent/guardian or eligible student (18 years of age or older) may inform the school of their desire that their child not be photographed or videotaped. If this is your desire, please send a letter indicating such to the principal at your child's school.

The school district maintains several classes of pupil records.

- “Progress records” include grades, courses the child has taken, the child’s attendance record, immunization records, required lead screening records, and records of school extra-curricular activities. Progress records must be maintained for at least five years after the child ceases to be enrolled.
- “Behavioral records” include such records as psychological tests, personality evaluations, records of conversations, written statements relating specifically to the pupil’s behavior, tests relating specifically to achievement or measurement of ability, physical health records other than immunization and lead screening records, law enforcement officers’ records, and other pupil records that are not “progress records.” Law enforcement officers’ records are maintained separately from other pupil records. Behavioral records may be maintained for no longer than one year after the child graduates or otherwise ceases to be enrolled, unless the parent specifies in writing that the records may be maintained for a longer period of time. The school district informs parents when pupil records are no longer needed to provide special education. At the request of the child’s parents, the school district destroys the information that is no longer needed.
- “Directory data” includes the student’s name, address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, photographs, degrees and awards received, and the name of the school most recently previously attended by the student.
- "Pupil physical health records" include basic health information about a pupil, including the pupil's immunization records, an emergency medical card, a log of first aid and medicine administered to the pupil, an athletic permit card, a record concerning the pupil's ability to participate in an education program, any required lead screening records, the results of any routine screening test, such as for hearing, vision or scoliosis, and any follow-up to the test, and any other basic health information, as determined by the state superintendent. Any pupil record relating to a pupil’s physical health that is not a pupil physical health record is treated as a patient health care record under sections 146.81 to 146.84, Wisconsin Statutes. Any pupil record concerning HIV testing is treated as provided under section 252.15, Wisconsin Statutes.

The Family Educational Rights and Privacy Act (FERPA), the Individuals with Disabilities Education Act (IDEA), and section 118.125, Wisconsin Statutes, afford parents and students over 18 years of age (“eligible students”) the following rights with respect to education records:

- **The right to inspect and review the student’s education records within 45 days of receipt of the request.** Parents or eligible students should submit to the school principal [or appropriate school official] a written request that identifies the records(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected. The school district will comply with the request without unnecessary delay and before any meeting about an individualized education program, or any due process hearing, and in no case more than 45 days after the request has been made. If any record includes information on more than one child, the parents of those children have the right to inspect and review only the information about their child or to be informed of

that specific information. Upon request, the school district will give a parent or eligible student a copy of the progress records and a copy of the behavioral records. Upon request, the school district will give the parent or eligible student a list of the types and locations of education records collected, maintained, or used by the district for special education. The school district will respond to reasonable requests for explanations and interpretations of the records. A representative of the parent may inspect and review the records.

- **The right to request the amendment of the student's education records that the parent or eligible student believes is inaccurate or misleading.** Parents or eligible students may ask the Northland Pines School District to amend a record that they believe is inaccurate or misleading. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the district decides not to amend the record, the district will notify the parent or eligible student of the decision and the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
- **The right to consent to disclosures of personally identifiable information in the student's education records, except to the extent that federal and state law authorize disclosure without consent.** The exceptions are stated in 34 CFR 99.31, Family Educational Rights and Privacy Act regulations; Sec. 9528, PL107-110, No Child Left Behind Act of 2001; and section 118.125(2)(a) to (m) and sub. (2m), Wisconsin Statutes. One exception that permits disclosure without consent is disclosures to school officials with legitimate educational interests. A school official is a person employed by the district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the district has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the district discloses education records without consent to officials of another school district in which a student seeks or intends to enroll. Also the district discloses "directory data" without consent, unless the parent notifies the district that it may not be released without prior parental consent.
- **The right to file a complaint with the U. S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA.** The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, S.W., Washington, DC 20202-4605.

Northland Pines School District

Bylaws & Policies

5517.01 - BULLYING

The Board of Education is committed to providing a safe, positive, productive, and nurturing educational environment for all of its students. The Board encourages the promotion of positive interpersonal relations between members of the school community. Bullying toward a student, whether by other students, staff, or third parties is strictly prohibited and will not be tolerated. This prohibition includes physical, verbal, and psychological abuse. The Board will not tolerate any gestures, comments, threats, or actions which cause or threaten to cause bodily harm or personal degradation. This policy applies to all activities in the District, including activities on school property, including at any of the school buildings or other property used exclusively or in part, whether leased or owned by the District, for the purpose of school-related functions or events; or while traveling to or from school or to and from school-sponsored functions or events; in transporting vehicles arranged for by School District officials. The policy applies as well during activities that occur off school property if the student or employee is at any school-sponsored, school-approved or school-related activity or function, such as field trips or athletic events where students are under the supervision of school authorities, or where an employee is engaged in school business.

Bullying is deliberate or intentional behavior using word or actions, intended to cause fear, intimidation, or harm. Bullying may be a repeated behavior and involves an imbalance of power. Furthermore, it may be serious enough to negatively impact a student's educational, physical, or emotional well being. The behavior may be motivated by an actual or perceived distinguishing characteristic, such as, but not limited to: age; national origin; race; ethnicity; religion; gender; gender identity; sexual orientation; physical attributes; physical or mental ability or disability; and social, economic, or family status; however this type of bullying behavior need not be based on any of the legally protected characteristics. It includes, but is not necessarily limited to such behaviors as stalking, cyberbullying, intimidating, menacing, coercing, name-calling, taunting, making threats, and hazing.

Any student that believes s/he has been or is the victim of bullying should immediately report the situation to the building principal or assistant principal, or the District Administrator. The student may also report concerns to a teacher or counselor who will be responsible for notifying the appropriate administrator or Board official. Complaints against the building principal should be filed with the District Administrator. Complaints against the District Administrator should be filed with the Board President.

Every student is encouraged to report any situation that they believe to be bullying behavior directed toward a student. Reports may be made to those identified above.

All school staff members and school officials who observe or become aware of acts of bullying are required to report these acts to the building principal or assistant principal, or the District Administrator.

Reports of bullying may be made verbally or in writing and may be made confidentially. All such reports, whether verbal or in writing, will be taken seriously and a clear account of the incident is to be documented. A written record of the report, including all pertinent details, will be made by the recipient of the report.

All complaints about behavior that may violate this policy shall be investigated promptly by the building principal. The staff member who is investigating the report of bullying shall interview the victim(s) of the alleged bullying and collect whatever other information is necessary to determine the facts and the seriousness of the report.

Parents and/or guardians of each student involved in the bullying report will be notified prior to the conclusion of the investigation. The District shall maintain the confidentiality of the report and any related student records to the extent required by law.

If the investigation finds that bullying has occurred, it will result in prompt and appropriate remedial and/or disciplinary action. This may include student discipline, including, but not limited to reprimand, suspension, or possible expulsion. Further, the result of an investigation that finds that bullying has occurred may result in

discharge for employees, exclusion for parents, guests, volunteers, and contractors, and removal from any official position and/or a request to resign for Board members. Individuals may also be referred to law enforcement officials.

The complainant shall be notified of the findings of the investigation, and as appropriate, that remedial action has been taken.

This policy shall not be interpreted to infringe upon the First Amendment rights of students (i.e., to prohibit a reasoned and civil exchange of opinions, or debate, that is conducted at appropriate times and places during the school day and is protected by State or Federal law).

Retaliation against any person who reports, is thought to have reported, files a complaint, or otherwise participates in an investigation or inquiry concerning allegations of bullying is prohibited and will not be tolerated. Such retaliation shall be considered a serious violation of Board policy and independent of whether a complaint is substantiated. Suspected retaliation should be reported in the same manner as bullying. Making intentionally false reports about bullying for the purpose of getting someone in trouble is similarly prohibited and will not be tolerated. Retaliation and intentionally making a false report may result in disciplinary action as indicated above.

The following definitions are provided for guidance only. If a student or other individual believes there has been bullying, regardless of whether it fits a particular definition, s/he should report it and allow the administration to determine the appropriate course of action.

"Bullying" is defined on page one. Some examples of bullying are:

- A. Physical – hitting, kicking, spitting, pushing, pulling, taking and/or damaging personal belongings or extorting money, blocking or impeding student movement, unwelcome physical contact.
- B. Verbal – taunting, malicious teasing, insulting, name calling, making threats.
- C. Psychological – spreading rumors, manipulating social relationships, coercion, or engaging in social exclusion/shunning, extortion, or intimidation.
- D. "'Cyberbullying' – the use of information and communication technologies such as e-mail, cell phone and pager text messages, instant messaging (IM), defamatory personal web sites, and defamatory online personal polling web sites, to support deliberate, repeated, and hostile behavior by an individual or group, that is intended to harm others."

The Board recognizes that cyberbullying can be particularly devastating to young people because:

- 1. cyberbullies more easily hide behind the anonymity that the Internet provides;
- 2. cyberbullies spread their hurtful messages to a very wide audience with remarkable speed;
- 3. cyberbullies do not have to own their own actions, as it is usually very difficult to identify cyberbullies because of screen names, so they do not fear being punished for their actions; and

4. the reflection time that once existed between the planning of a prank – or a serious stunt – and its commission has all but been erased when it comes to cyberbullying activity.

Cyberbullying includes, but is not limited to the following:

1. posting slurs or rumors or other disparaging remarks about a student on a web site or on weblog;
2. sending e-mail or instant messages that are mean or threatening, or so numerous as to drive-up the victim's cell phone bill;
3. using a camera phone to take and send embarrassing photographs of students;
4. posting misleading or fake photographs of students on web sites.

"Harassment" includes, but is not limited to, any act which subjects an individual or group to unwanted, abusive behavior of a nonverbal, verbal, written or physical nature on the basis of age, race, religion, color, national origin, marital status or disability (sexual orientation, physical characteristic, cultural background, socioeconomic status, or geographic location).

"Intimidation" includes, but is not limited to, any threat or act intended to tamper, substantially damage or interfere with another's property, cause substantial inconvenience, subject another to offensive physical contact or inflict serious physical injury on the basis of race, color, religion, national origin or sexual orientation.

"Menacing" includes, but is not limited to, any act intended to place a school employee, student, or third party in fear of imminent serious physical injury.

"Harassment, intimidation, or bullying" means any act that substantially interferes with a student's educational benefits, opportunities, or performance, that takes place on or immediately adjacent to school grounds, at any school-sponsored activity, on school–provided transportation or at any official school bus stop, and that has the effect of:

- A. physically harming a student or damaging a student's property;
- B. knowingly placing a student in reasonable fear of physical harm to the student or damage to the student's property; or
- C. creating a hostile educational environment.

"Staff" includes all school employees and Board members.

Privacy/Confidentiality

The School District will respect the privacy of the complainant, the individual(s) against who the complaint is filed, and the witnesses as much as possible, consistent with the Board's legal obligations to investigate, to

take appropriate action, and to conform with any discovery or disclosure obligations. All records generated under this policy and its related administrative guidelines shall be maintained as confidential to the extent permitted by law.

To the extent appropriate in conducting a thorough investigation and/or as legally permitted, confidentiality will be maintained during the investigation process.

Notification

All new hires will be required to review and sign off on this policy and the related complaint procedure.

The School District will also provide a copy of the policy to any person who requests it.

Records and Reports

Records will be maintained on the number and types of reports made, and sanctions imposed for incidents found to be in violation of the bullying policy.

An annual summary report shall be prepared and presented to the School Board, which includes trends in bullying behavior and recommendations on how to further reduce bullying behavior. The annual report will be available to the public.

Education and Training

In support of this policy, the Board promotes preventative educational measures to create greater awareness of bullying behavior. The District Administrator or designee shall provide appropriate training to all members of the School District community related to the implementation of this policy and its accompanying administrative guidelines. 5517.01 - BULLYING

The following procedures shall be used for reporting, investigating and resolving complaints of bullying.

Complaint Procedures

Building principals and assistant principals and the District Administrator have responsibility for conducting investigations concerning claims of bullying. The investigator(s) shall be a neutral party having no direct involvement in incident(s) upon which the complaint is based.

Any employee who has knowledge of conduct in violation of Policy 5517.01 is required to immediately report his/her concerns.

Any student or third party who has knowledge of conduct in violation of Policy 5517.01 believes s/he has been a victim of aggressive behavior in violation of Policy 5517.01 should immediately report his/her concerns.

All complaints will be promptly investigated in accordance with the following procedures:

Step I

Any claims of bullying shall be presented to the building principal or assistant principal or the District Administrator. Students may also report their concerns to teachers or counselors who will be responsible for notifying the appropriate administrator or Board official. Complaints against the building principal shall be filed with the District Administrator. Complaints against the District Administrator shall be filed with the Board President. Information may be initially presented anonymously. All such information will be reduced to writing and will include the specific nature of the offense and corresponding dates. If the person filing the complaint is an adult, s/he must sign the charge affirming its veracity. If the person filing the complaint is a minor, s/he may either sign the charge or affirm its veracity before two (2) administrators.

Step II

The administrator/Board official receiving the complaint shall conduct a prompt investigation. Parents will be notified of the nature of any complaint involving their student. The administrator/Board official will arrange such meetings as may be necessary with all concerned parties within five (5) work days after receipt of the information or complaint. The parties will have an opportunity to submit evidence and a list of witnesses. All findings related to the complaint will be reduced to writing. The administrator/Board official conducting the investigation shall notify the complainant and parents as appropriate, (in writing,) when the investigation is concluded and the findings made. All information provided shall be provided consistent with student record and staff personnel file confidentiality as required by law (See Policy [8330](#) and Policy [8350](#)).

A copy of the notification letter or the date and details of notification to the complainant, together with any other documentation related to the

incident, shall be forwarded to the District Administrator.

With regard to complaints received against the District Administrator (or a member of the Board), the investigation shall be referred to the school board attorney who shall conduct a prompt investigation. The school board attorney is authorized to designate an outside third party to conduct the investigation. The school board attorney or designee will arrange such meetings as may be necessary with all concerned parties within five (5) work days after receipt of the information or complaint. The parties will have an opportunity to submit evidence and a list of witnesses. All findings related to the complaint will be reduced to writing. The school board attorney or designee conducting the investigation shall notify the complainant and parents as appropriate, (in writing,) when the investigation is concluded and the findings made.

A copy of the notification letter or the date and details of notification to the complainant, together with any other documentation related to the incident and the statement of the findings of the investigation, shall be included in the personnel file, consistent with Policy [8320](#).

If the complaint is affirmed and it is determined that the matter is not only an instance of bullying, but would also be harassment as described in Policy [5517](#), then the complainant will be advised of his/her right to pursue the matter with the Office of Civil Rights.

Step III

If the complainant is not satisfied with the decision at Step II, s/he may submit a written appeal to the District Administrator or designee. Such appeal must be filed within ten (10) work days after receipt of the Step II decision. The District Administrator or designee will arrange such meetings with the complainant and other affected parties as deemed necessary to review and discuss the appeal. The District Administrator or designee shall provide a written decision to the complainant's appeal within ten (10) work days of the appeal being filed. The decision of the Superintendent shall be final

If the complainant who has filed a complaint of bullying against the District Administrator or a member of the Board is not satisfied with the decision at Step II, a written appeal may be filed with the Board. Such appeal must be filed within ten (10) work days after receipt of the Step III decision. The Board shall, within twenty (20) work days, conduct a hearing at which time the complainant shall be given an opportunity to present the complaint. If the complaint is against a member of the Board, that member shall recuse himself/herself from participation in the hearing, as a member of the Board, but may present information to the Board hearing on the matter. The Board shall provide a written decision to the complainant within ten (10) work days following completion of the hearing

Documentation related to the incident, other than any discipline imposed or remedial action taken, will be maintained in a file separate from the student's education records or the employee's personnel file.

Retaliation/False Charges

Retaliation against any person who reports, is believed to have reported, or files a complaint, or otherwise participates in an investigation or inquiry related to a complaint of aggressive behavior and/or bullying is prohibited. Such retaliation shall be considered a serious violation of Board policy and independent of whether a complaint is substantiated. Retaliation and false charges shall also be regarded as a serious offense and will result in disciplinary action or other appropriate sanctions. Suspected retaliation should be reported in the same manner as aggressive behavior and/or bullying.

Inappropriate boundary invasions are prohibited and must be reported promptly to the Complaint Coordinator, the building principal or the District Administrator.

It is further the policy of the Board that a sexual relationship between staff and student is not permissible in any form or under any circumstances, in or out of the work place, in that it interferes with the educational process and may involve elements of coercion by reason of the relative status of a staff member to a student.

Reporting Procedures

To provide individuals with options for reporting harassment to an individual of the gender with which they feel most comfortable, each school's building principal is advised to designate both a male and a female Complaint Coordinator to receive harassment complaints under this administrative guideline. The Complaint Coordinators may also serve as the District's 504 and Title IX Coordinators.

Complaint Coordinators

Principal

Principal

Any student who believes s/he has been the victim of harassment prohibited under this administrative guideline is encouraged to immediately report the alleged harassment to a Complaint Coordinator, their primary teacher, the building principal, or the District Administrator.

Any parent of a student who believes the student has been the victim of harassment prohibited under this administrative guideline is encouraged to immediately report the alleged harassment to a Complaint Coordinator, the student's primary teacher, the building principal, or the District Administrator.

Any teacher, administrator, or other school official who has or receives notice that a student has or may have been the victim of harassment prohibited under this administrative guideline is required to immediately report the alleged harassment to a Complaint Coordinator, the building principal, or the District Administrator.

Any other person with knowledge or belief that a student has or may have been the victim of harassment prohibited by this administrative guideline is encouraged to immediately report the alleged harassment to a Complaint Coordinator, the building principal, or the District Administrator.

The District encourages the reporting party or complainant to use the report form available from the principal of each building or available from the School District office (see [Form 5517 F1](#)), but oral reports shall be considered complaints as well. Use of formal reporting forms is not mandated. However, if the report is given orally, the Complaint Coordinator shall personally reduce it to writing within twenty-four (24) hours. Nothing in this administrative guideline shall prevent any person from reporting harassment directly to the District Administrator. For example, if the Complaint Coordinator, the reporting individual may report the harassment to the District Administrator. For example, if the complaint involves the Complaint Coordinator, the reporting individual may report the harassment to the District Administrator.

Complaint Coordinators will be available during regular school hours to address concerns relating to this administrative guideline. The principal of each building will also make arrangements for a Complaint Coordinator to be available to handle complaints of harassment that may require immediate attention outside regular school hours.

Investigation Procedure

Upon receipt of a report or complaint alleging harassment prohibited under the policy or administrative guideline, the Complaint Coordinator shall immediately undertake or authorize an investigation of the complaint by another individual designated by the District Administrator (the "Investigator"). Generally, the District Administrator, or his/her designee, will oversee the investigation of the complaint. The District Administrator will also take immediate action, as may be appropriate, to prevent further violations of the policy or administrative guideline while the investigation is being conducted.

The investigation may consist of personal interviews with the complainant, the individual against whom the complaint is filed, and others who have knowledge of the alleged incident or circumstances giving rise to the complaint. The investigation may also consist of the evaluation of any other information or documents, which may be relevant to the particular allegations.

Whether a particular action or incident constitutes a violation of the policy or administrative guideline requires a determination based on all the facts and surrounding circumstances. In determining whether the alleged conduct constitutes a violation of the policy or administrative guideline, the District may consider, as appropriate:

- A. the nature of the behavior;
</
- B. how often the conduct occurred;
</
- C. whether there were past incidents or past continuing patterns of behavior;
</
- D. the relationship between the parties involved;
</
- E. the protected characteristics of the victim as well as the cognitive and communication abilities of the student;
</
- F. the identity of the alleged harasser, including whether the alleged harasser was in a position of power over the student allegedly subjected to harassment;
</
- G. the number of alleged harassers;
</
- H. the age of the alleged harasser;
</
- I. where the alleged harassment occurred;
</
- J. whether there have been other incidents in the school involving the same or other students;
</
- K. whether the conduct adversely affected the student's education or educational environment;
</
- L. the context in which the alleged incidents occurred;
</
- M. any other facts, documents, and information relevant to the allegations.

</

The investigation should be completed no later than thirty (30) calendar days from receipt of the complaint, unless additional time is needed to conduct a thorough and objective investigation. The Investigator shall make a written report to the District Administrator upon completion of the investigation. If the complaint involves the District Administrator, the report shall be filed directly with the Board. The report shall include a determination of whether the allegations have been substantiated as factual and whether they appear to be violations of the policy or administrative guideline. The Investigator may conduct this investigation regardless of the fact that a criminal investigation involving the same or similar allegations is also pending or has been concluded.

Reporting Procedures/Investigation For Special Needs And Younger Students

The District Administrator will develop appropriate alternative reporting and investigation procedures for special needs and younger students.

School District Action

Upon receipt of a report that a violation has occurred, the District will take prompt, appropriate formal or informal action to address, and where appropriate, remediate the violation. Appropriate actions may include, but are not limited to, counseling, awareness training, parent-teacher conferences, warning, suspension, exclusion, expulsion, transfer, remediation, termination, or discharge. District action taken for violation of this administrative guideline shall be consistent with the requirements of applicable collective bargaining agreements, State and Federal law, and District administrative guidelines for violations of a similar nature or similar degree of severity. In determining what is an appropriate response to a finding that harassment in violation of this administrative guideline has occurred the District may consider:

- A. what response is most likely to end any ongoing harassment;
</
- B. whether a particular response is likely to deter similar future conduct by the harasser or others;
</
- C. the amount and kind of harm suffered by the victim of the harassment;
</
- D. the identity of the party who engaged in the harassing conduct;
</
- E. whether the harassment was engaged in by an individual in the School District community, and if so, the School District will also consider how it can best remediate the effects of the harassment;
</
- F. other relevant factors.
</

If the evidence suggests that the harassment at issue violates a criminal statute or requires mandatory reporting under the Children's Code (Sec. 48.981, Wis. Stat.), the Board shall also direct the District Administrator to report the harassment to the appropriate social service and/or law enforcement agency charged with responsibility for handling such investigations and crimes.

In accord with State and Federal laws regarding privacy and other rights, the District Administrator shall provide the complainant and other parties with a written answer to the complaint within fifteen (15) calendar days of receiving the Investigator's report.

Appeals under 20 U.S.C. Sec. 1415 and Chapter 115, Wis. Stats., relating to the identification, evaluation, educational placement, or the provision of a free appropriate public education of a child with an exceptional educational need, shall be resolved through the procedure authorized by Chapter 115, Wis. Stats., and shall not be subject to these procedures. Complaints under 34 C.F.R. Sec. 300.660-300.662 shall be referred directly to the State Superintendent of Public Instruction in Madison.

Reprisal

Submission of a good faith complaint or report of harassment will not affect the complainant's or reporter's grades or learning environment. However, the District also recognizes that false or fraudulent claims of harassment or false or fraudulent information relating to a claim of harassment may be filed. The District reserves the right to discipline any person filing a false or fraudulent claim of harassment or providing false or fraudulent information regarding a claim.

The District will discipline or take appropriate action against any member of the School District community who retaliates against any person who reports an incident of harassment prohibited by this administrative guideline or participates in a proceeding, investigation, or hearing relating to such harassment. Retaliation includes, but is not limited to, any form of intimidation, reprisal, or harassment.

Miscellaneous

The District shall conspicuously post a notice including the policy against harassment in each school that the District maintains, in a place accessible to the School District community and members of the public. This notice shall also include the name, mailing address, and telephone number of the Complaint Coordinators, the name, mailing address, and telephone number of the State agency responsible for investigating allegations of discrimination in educational opportunities, and the mailing address and telephone number of the United States Department of Education, Office for Civil Rights.

A summary of the policy shall appear in the student handbook and shall be made available upon request of parents, students, and other interested parties.

The District Administrator will ensure that methods are developed for discussing this administrative guideline with the School District community. Training on the requirements of non-discrimination and the appropriate responses to issues of harassment will be provided to the School District community on an annual basis, and at such other times as the Board in consultation with the District Administrator determines is necessary or appropriate.

This administrative guideline shall be reviewed at least annually for compliance with local, State, and Federal law.

The District will respect the privacy of the complainant, the individuals against whom the complaint is filed, and the witnesses as much as practicable, consistent with the District's legal obligations to investigate, to take appropriate action, and to conform with any discovery, disclosure, or other legal obligations.
