

Scratch & Sniff Watercolor Paints

This is a non-edible recipe

Warning: The paint mixture will stain immediately. Use caution around clothing and other household surfaces (floors, tables, counter tops, etc). It may be better to do this project outdoors.

If your family would like to try it, you will need:

For each color/scent:

1 packet Kool-Aid (or other brand)

1 T. warm water

All you need to do is:

1. Mix ingredients together in a small cup (empty film canisters work well also).
2. Paint a picture.
3. Allow your painting to dry overnight.
4. Scratch and sniff your creation!

Variations:

- Experiment with a variety of papers.
- Combine two flavors of Kool-Aid (or other brand) to create a unique color and scent of paint.
- Make Scratch & Sniff greeting cards or wrapping paper.
