

# Toothy Toast

If your family would like to try it, you will need:

1 loaf of white bread - prepare the day before (see step 1)

A variety of toast toppings:

Butter

Peanut Butter

Cheese

Jelly

Fresh Fruit

Cinnamon/Sugar

All you need to do is:

1. Squish the loaf of bread (while still in bread bag) into the shape of a tooth. See below:
  - Make a deep impression in the bottom of the loaf.
  - Push the bottom sides together so the bottom of the loaf is thinner than the top.
  - Put in freezer over night, so when you thaw it, it will keep its toothy shape.
2. Remove bread from freezer and allow to thaw.
3. Preheat oven to "broil," so the top heating element will warm up.
4. Place several pieces of tooth-shaped bread on a cookie sheet and put in oven.
5. When top sides are toasted, flip the pieces over and toast the other side.
6. Enjoy your Toothy Toast plain or top it off with your favorite toppings!
