“A Great Place to Grow and
be a Kid!”

Our Mission

Our mission is to provide a happy, warm, nurturing, positive, loving and safe environment that fosters the growth and development of the whole child. We will nurture the joy of discovery and learning in your child and create a curriculum that complements the Northland Pines School District Program of Studies.

Our Philosophy

We provide a stimulating, safe, and welcoming learning environment designed to meet the individual needs of the children and parents. We provide an exceptional program that contributes to the goals and priorities families have for their children. Our children embrace learning, build self-confidence, develop friendships, have fun, and participate in physical activities.

Our major emphasis is learning through hands on activities that reflect the children's interest and current explorations. We provide a wide variety of opportunities for children to learn by experiencing concepts and ideas.

Within our classrooms, children can learn from several settings - learning centers, large group activities, small group activities, and individual time with the teacher. We take time in our daily schedule

From the Parents

"The exceptional teachers at Northwoods Child Development Center are dedicated to providing a nurturing environment and planned curriculum that gives the children the ability to learn while having fun. My children are excited to go to daycare every day and that alone proves they are being well cared for. I especially appreciate the healthy foods they are served for meal and snack! Definitely the best daycare in the Northwoods!"

"Between such an excellent director and owner in Teri Mason and an amazing staff, it's no wonder that this school is such a wonderful place for children and their families!"
