## **TEACHER – FAMILY CONFERENCE**

To start the year we want to make sure all families and students' needs are met. To personalize open house we are running it like Parent/Teacher conferences. So teachers can better serve families and get to know students, they will ask you and your child questions similar to the ones below.

What are your child's strengths?

What are your child's interests and hobbies?

What is your child's goal for this year?

What is one thing you hope for this year?

Any special information I should know about your child or family?

What is the best way to communicate with you (phone, email, etc)?

Do you have concerns for the upcoming year?

Any other comments, questions or concerns?
