Our mission as a school and community is to guarantee rigor, relevance, and relationships to prepare all learners for life. ALL staff believe in ALL students, which inspires students and provides a foundation so each student can reach his/her dreams and goals. We provide high quality instruction, innovative learning experiences and an individualized education for every student. We are blessed to have a supportive community and fortunate to have state of the art technology, small class sizes, and amazing facilities. We have a dedicated, talented, and experienced staff that collaboratively works to create a rigorous and joyful learning environment for all students so they each gain a love for learning.

CONGRATULATIONS CLASS OF 2023!

The 2022-23 school year had so many positive moments that this article or this edition of the Voice of the Pines can only share just a few of them. Any time you have an "event" like a school year, you reflect on the positives and also some of the challenges. All the positive moments do not happen by chance; they are the product of a great student body, staff, parents and a community that makes sure they can happen.

The success we had this year will be what we use to build on for the future years. It is an honor to have been part of this district in different capacities for 23 years. Over those years one thing has been consistent, we want to continuously improve for our students and community. This year was no different as we added instructional paras at the elementary levels, training in reading and math, offered new classes, field trips, projects and improved school safety. We have plans in place to focus on these areas as well as continue to work on the impacts of technology, social media, mental health, and vape cessation with our students next year. If we focus on what we do well and use those strategies, as well as new innovations, we will continue to get better at the things our student feedback and parent surveys data tells us.

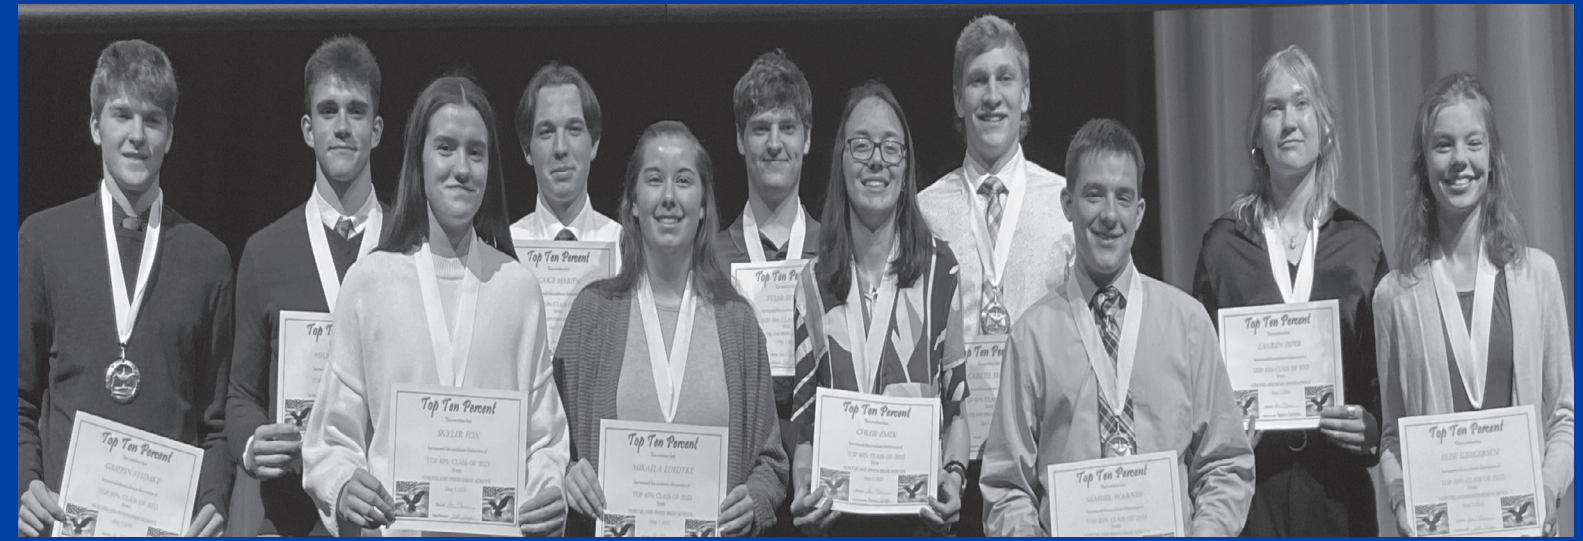

SCOTT FOSTER
District Administrator

Congratulations to the Class of 2023 and good luck to all of our graduates in their future. Forrest Mann has shared at a few events the pride he had in our students during our performance at the 2023 Rose Parade this year. He also shared how that would not have been possible if Amy Wainscott (Kauzlaric, class of 1983) President of the Rose Parade would not have thought about how to include her high school and give our students this opportunity. Much like the Rose Parade, any accomplishment, like graduation, would not be possible without a group of staff, family members, and community members to make it possible. One way our students can show appreciation in the future is to model what Amy did, remember others and the community by paying it forward. I know that our class of 2023 will be successful in many ways as they head into the future, including paying it forward in our community or where life takes them. This is thanks to people like Amy and so many of you in this community that modeled that for them throughout their school career.

We will continue to reflect on this past school year and all our students and staff accomplishments as we prepare for next year. We have a very busy summer ahead and we are even more excited for the 2023-24 school year! Have a great summer and GO EAGLES! #PinesPride
