

Dear Northland Pines Families:

First let me thank you for your understanding during this unique time in the state, nation and world. I also thank you for being understanding as you are receiving so many messages, we are attempting to keep you informed without causing confusion. The Northland Pines School District is confident that our schools are clean and safe for our staff and students and our current data related to illness supports this statement. We are planning on having school on Monday, Tuesday and Wednesday this week and we prepared to have three great days of learning. During this time we will also prepare students for some virtual learning over the mandated closed times. The Governor's decision to close schools starting on Thursday 3/19 is understood and is a good decision based on where things are at today. The district will follow up early this coming week with a calendar and plan for the closure time. The district has meetings on Monday to finalize details which will be included in the plan. Thanks again for all your understanding and support. We look forward to continuing to support your student and your family in the coming weeks, just in different ways!

*Scott Foster
District Administrator*
